Economic Cooperation**  
PROJECT ARCHITECT

## **LETTER OF INTENT.**

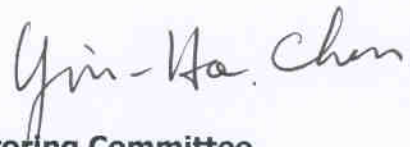

Within the frame of the Project Architect APEC, the Monitoring Committees of Mexico and Chinese Taipei have the intention to impel and to promote the interchange and understanding of social, cultural and economic themes that promote and develop a mutual approach of ideas and technologies.

Also, we look forward to the futures of elimination borders and offering to the common of the architects of the two economies, the opportunity of the international mobility for the architecture professional practice, with the benefits for our societies, cultures and environments.

Therefore, we decided to establish a mechanism to explore the possibility to barrier-free on architectural professional services between the signatories of this letter.
